In an "A" Game, the "B" Players may be increased from 3000 points to 4000 points per match during the regular session if they are not in the top 6 of player points for the points standings. Players are seeded by player ranking and by points standing. The top points leaders should be placed in the "A" game when possible. Player rankings, game seedings, player draws, and match points are at the discretion of the operator in an effort to even the playing field. Skill Level 8+ are "AA" Players, 7's are "A" players. 6's can be "A" or "B". Skill Level 3's, 4's, and 5's are "B" Players. Skill Level 2's are "C" Players.
